

Partner with Sibex - We will help you achieve your quality, cost reduction and on-time delivery goals.

ADVANCED ELECTRONIC MANUFACTURING SOLUTIONS

Veteran-Owned Small Business (VOSB)

UL Registered ISO 9001:2008

Circuit Board, Cable Harness & Box Build Assembly

Prototype to High Volume Production

Fine Pitch Surface Mount, BGA w/X-Ray

Automated Through-Hole

Functional or In-Circuit Testing

Conformal Coating Solutions

RoHS Lead Free Compliant

Engineering & Design Services

Homosassa Facility

1760 S. Dimensions Terrace
Homosassa, FL 34448
352-795-0101
352-564-0772 (Fax)

Corporate

Safety Harbor Facility

1040 Harbor Lake Drive
Safety Harbor, FL 34695
727-726-4343
727-726-4434 (Fax)

Largo Facility

12722 62nd Street, Suite 204
Largo, FL 33773
727-530-4336
727-530-4336 (Fax)

Custom Solutions to Help You Succeed

At Sibex Electronics, we understand the challenges that OEMs face today, and we are committed to providing turnkey or labor only manufacturing solutions that yield the best overall value in terms of reliability, cost and time-to-market. Since 1983, our philosophy of helping our customers succeed is the reason we have formed long-lasting partnerships with our customers.

Our competitive pricing, advanced manufacturing technologies, time-to-market initiatives, experience, available production capacity and financial stability are the predominant reasons new customers select us as their manufacturing partner. Quality, reliability, service and overall value are the primary reasons our customers choose to strengthen our relationships.

QUALITY
RELIABILITY
EXCELLENCE

3 Facilities with over 65,000 sq ft of manufacturing space
Over 100 production, engineering, and QC personnel

Exceeding Industry Standards through Innovation & Commitment to Excellence

Our commitment to excellence begins with our rigorous ISO 9001 quality assurance program. From quoting to fulfillment, quality is a vital part of our manufacturing process. Our computer-controlled production lines provide real-time data to our QC inspectors, which allow us to monitor process defects and immediately take corrective actions. Our pass yield rates and on-time delivery rates are well above industry averages.

Our automated high-speed in-line production lines allow us to offer a broad range of advanced electronic manufacturing solutions for circuit board assemblies, from single-sided through-hole to double-sided complex densely-populated fine pitch and BGA assemblies. Additionally, we have expertise in quick-turn electromechanical assemblies and box builds.

Whether you have low volume fulfillment problems or cost pressures for higher volume products, Sibex Electronics has a solution to help you become an industry leader.

Highly-skilled long-term employees
IPC-A-610 Class 2 workmanship standard, Class 3 as required
